

# MAC & CRAFT

Mac & Craft presents a simple-to-use craft pattern that turns empty macaroni and cheese boxes into paperboard houses.

Four-fold format includes a reusable pattern, full directions, and ideas for decorating the houses. Printed on heavy coated cover stock with polished graphics for a high-quality impression, and comes packed in a resealable cello sleeve. Clip-strip ready for flexible merchandising.

Fully illustrated directions show how to open the box flat, trace the pattern, cut using ordinary scissors, decorate the *unprinted* side of the box, then reassemble the box into a house using just six pieces of tape.

Mac & Craft works with all commonly available brands of boxed macaroni and cheese including store brands. Mac & Craft is not a toy but makes a great activity for children with adult supervision.

Product dimensions:  
 11" x 17" unfolded, 11" x 4.25" folded  
 Packaged dimensions including cello sleeve: 11" x 5"

Available in any quantity.  
 Suggested retail \$5.95 - \$6.95.

Front and back covers, and fully illustrated directions on one side

Pattern and decorating ideas on the other side. The directions and decorating ideas are printed back-to-back. They become their own unit once the pattern is cut out. Both parts store for re-use in the cello sleeve.
